RESPONSE TO AMENDMENT

1. Claims 1-49 and 58-60 are pending in the application.
2. Amendments to the claims, filed on January 24, 2006, have been entered in the above-identified application.

REJECTIONS

3. **The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.**

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-49 and 58-60 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 have been amended to recite "the first and second section of the particulated polymeric matrix formed with substantially the same distribution of the surface roughness forming particles." The examiner is unable to find support for this limitation in the

specification. Furthermore, the only support in the specification regarding the distribution of the particles in the first and second sections are that they are different (*Specification, paragraph 44*).

6. Claims 1-49 and 58-60 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. That the particles in one section are on the surface and in the other section completely embedded (*figure 5*) critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

ANSWERS TO APPLICANT'S ARGUMENTS

7. Applicant's arguments in the response filed January 24, 2006 regarding the previous rejections of record have been considered but are moot due to the new grounds of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1772

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
